Free information seminar on

SPACE WEATHER EFFECTS and BOM Services

To raise awareness about space weather and its effects, Bureau of Meteorology, is planning to present a one hour **free information seminar** in Canberra from **10.00 am to 11.00 am** on **2 June 2017**. The presentation will cover the following topics:

- Space Weather: what it is all about.
- About the Sun: Solar wind/flares/storms/cycle, coronal mass ejections and coronal holes.
- Space weather effects: Geomagnetic and ionospheric storms/disturbances and their effects on businesses.
- Space weather and BOM Services
