**Free information seminar on**

**Space Weather Effects and BOM Space Weather Services**

To raise awareness about space weather and its effects, Space Weather Services, Bureau of Meteorology, is planning to present a one-hour **free information seminar** in Brisbane from **3.00 pm to 4.00 pm on 18 June 2018**. The presentation will cover the following topics:

- Space Weather: what it is all about.
- About the Sun: Solar wind/flares/storms/cycle, coronal mass ejections and coronal holes.
- Space weather effects: Geomagnetic and ionospheric storms/disturbances and their effects on businesses.
- Space weather and BOM/IPS Services

**Registration:**

Please register your interest by COB 7 June 2018 via  
e-mail to: [SWS\\_Office@bom.gov.au](mailto:SWS_Office@bom.gov.au)  
or fax to Rakesh Panwar on: 02-92138060

***Please note that this free seminar runs in conjunction with our [HF Radio Propagation course \(HFRPC\)](#) and will only go ahead if we receive enough registrants for the HFRPC.***

For registration, please send the following information:

Your name:  
Organisation that you work for:  
Contact phone number:  
Fax number:  
E-mail ID:

Details about the venue will be provided after the registration of your interest.

Kind regards,

Rakesh Panwar
